Quotes And Notes

"The Ridge traces the thread that runs throughout Taylor's career, one that rejects being confined to a certain genre and comes from his life experience as a mixed person." Julian Taylor Track Premiere "Ballad of a Young Troubadour"

"To put it simply, METZ is doing what it does best."

"(Hawksley) Workman's always-impressive creativity and vocal range continue to shine on through each subsequent album, including this soul-warming dynamic release. 'Less Rage More Tears' is quite possibly Workman's finest, right when we need it most."

"Unapologetically weaving their way through varied genres, Stafford & Butcher's bluesy story-based music is raw around the edges, while sucking you willingly inside - a sonic diamond in the rough, so to speak"

"(Alex) Southey never just tells a story, rather his lyrics read like poetry and there is a certain degree of interpretation, but this, again, adds to the beauty of the E.P. But the sentiment is there and is augmented by the brilliant arrangements of the song. Not to mention Southey's own strong vocal performance."

"Visionary trailblazers and gifted multimedia storytellers, who have crafted to perfection the art of taking some of the most memorable horror films of all time and mesh them together with metal music, to create some of this generation's most brilliant musical masterpieces." Ice Nine Kills Album Review
